ACHIEVEMENTS

• Achieved **5-star** ranking on **HackerRank** in **Python** and **3-star** ranking in **C++**

• Solved **100+** complex problems across platforms, demonstrating strong algorithmic skills

CERTIFICATE

Python Programming University of Michigan.
Front end Development - HTML
Front end Development - CSS
Matillion Associate Certification

EXPERIENCE

EXO-FIELD | Software Engineer
Jun 2024 - Present
• Working with **React.js, Spring Boot, HTML, CSS and JavaScript** focusing on intuitive user interfaces and optimized **API data integration**
• Actively contributed to debugging, troubleshooting and refining application components, enhancing performance and maintaining scalability
• Consistently improved front-end performance by following best practices, focusing on **security, and enhancing application stability**

PIBYTHREE |Associate Software Engineer
Aug 2022 - Sep 2023 | Pune,India

• Collaborated with the founding team to establish accelerators, oversaw end-to-end **SaaS product development**, and maintained **organizational portals**
• Established growth initiatives, designed a comprehensive data migration tool, and fostered cross-functional collaboration
• Gained valuable knowledge in **software development** and data engineering, contributing actively to **SaaS product development** and ensuring portal functionality , resulting in **65%** improvement in product functionality/usability

SKILLVERTEX |Web Developer Intern [Certificate]
Oct 2021 - Dec 2021
• Enhanced e-commerce site with multifunctionality, ensuring appealing user interfaces
• Analyzed project specs, devised plans, and executed web components seamlessly
• Executed UI development, leveraging **HTML, CSS, JAVASCRIPT, BOOTSTRAP, PHP and MySQL**

PROJECTS

E-COMMERCE WEBSITE [Link]
• Crafted user interfaces using **HTML , CSS ,JAVASCRIPT**
• Sculpted the front-end experience for an E-commerce online shopping website
• Designed responsive and user-friendly web pages for seamless site navigation

REACT REDUX TODO APP [Link]
• Developed a **React Redux** Todo application, demonstrating advanced **frontend** skills , resulting in a **70%** improvement in task management efficiency or user satisfaction
• Engineered an intuitive user interface, fostering seamless task management through features such as task **creation, editing, and deletion**
• Utilized **Redux** for robust **state management, ensuring scalability and maintainability**

DATA RECONCILIATION FRAMEWORK
• Developed a data reconciliation tool in **Python Flask** to validate extensive datasets in **MySQL and Snowflake** databases, improving data accuracy and integrity.
• Successfully tested the tool across a total of **24 tables**, including 21 orders tables, each housing an extensive **1 million records**, 2 employee tables (one with **1 million records** and another with an astonishing **20 million records**), and 1 user table with 23 records
